DAYS HOURS MINUTES SECONDS

Dear Michael,

On August 23, Robert F. Kennedy, Jr. endorsed Donald Trump and suspended his campaign in the battleground states.

RFK Jr.'s name remains on the ballot in 40 states. After the election, if he receives **5% or more of the popular vote nationwide**, he can create an independent political party.

Such a party could start running candidates for office in 2025 - without the expensive need to gather huge numbers of petition signatures. Such a party could be an ongoing institution advocating for the ideas and policies Bobby represents.

Here's the thing: **We have already won a spectacular victory.**

A year and a half ago, chronic disease, endless wars, censorship, and corporate control over our regulatory agencies *were barely a whisper in the national conversation.*

These critical issues—central to the well-being and future of our nation—were systematically ignored by the mainstream media and the political establishment.

Yet today, thanks to Bobby Kennedy's unwavering commitment and the powerful platform he now shares with President Trump, **we're witnessing a stunning shift in the national conversation.**

These key issues are no longer buried in obscurity; **they are now front and center in the minds of millions of Americans**, sparking conversations and demanding action.

Last Friday, **over 100 million Americans tuned in to hear Bobby** boldly outline the four critical pillars of his campaign:

- Ending the chronic disease epidemic:
- Ending the Forever Wars, especially the Ukraine War:
- Ending the dictatorship of censorship: and,
- Ending the corporate capture of our regulatory agencies.

This is more than just a campaign—*it's a revolution to reclaim our country's health, freedom, and integrity.*

**And Bobby's megaphone just got a whole lot bigger!**

Prior to last Friday, Bobby was excluded from the mainstream media. Yes, our social media content reached many people outside the traditional news networks. But now, Bobby's voice can reach over 100 million voters in a single speech—a **hundredfold increase**, an increase that changes everything.

This isn't just an incremental shift; it's a seismic leap that presents us with a **unique and unprecedented opportunity to fundamentally change the course of America.**

**Every dollar given now has an impact far greater than ever before. We are engaging the entire nation.**

Donate

**Your support at this critical juncture** will allow us to optimize and capitalize on this new, vast audience.

We will amplify Bobby's message through targeted social media campaigns, produce compelling videos that inspire millions more to join our cause, and mobilize in all 40 states where Bobby is on the ballot, ensuring every voice is heard.

Every dollar contributed - every vote cast - strengthens RFK Jr's leverage to implement the needed reforms.

This is not just about continuing the fight—it's about **seizing the momentum to create a transformative change that will echo through the generations.**

This is our moment to make history. The momentum is on our side, and with your support, we can fundamentally change America.

**Will you stand with Bobby today and help us take this movement to the next level?**

Donate

As we approach the end of the month and the FEC reporting deadline, your contribution is more important than ever.

By giving generously today, you'll help ensure that we end this month with the momentum to drive this revolution forward.
